

# I MOHSEN SHIRAZI

A finance student, I possess a versatile skillset including cross-cultural communication, analytical thinking, teamwork, and problem-solving abilities. My adaptability, time management, and attention to detail enable me to thrive in dynamic environments like the stock market, where quick decision-making and a solutions-driven mindset are crucial. Complemented by customer service skills, technical proficiency, and a commitment to continuous learning, I am well-equipped to tackle the ever-evolving financial landscape

## EXPERIENCES

### Manager assistant 2020 - 2022

Hasan Gold / Istanbul

As a valuable member of the team, I played a crucial role in supporting the owner by conducting thorough quality assurance checks on end products and monitoring relationships with suppliers and customers. My responsibilities included meticulously tracking payments to suppliers and from customers, ensuring financial transactions were executed accurately and in a timely manner. Leveraging my previous experience in customer service, I facilitated effective communication between international clients and the management, bridging any gaps and ensuring seamless interactions. Additionally, I contributed to the operational efficiency by aiding in monitoring workforce activities and distributing tasks to ensure smooth workflow. Through this multifaceted role, I honed my attention to detail, financial acumen, and interpersonal skills, becoming an integral part of the company's day-to-day operations.

### Assistant to the Director 2019 - 2020

Pars Group / Istanbul

In my multifaceted role at an investment and forex exchange company, I provided direct support to the Director, immersing myself in various aspects of the business. I managed customer accounts, offering daily insights to investors to enhance their decision-making processes. Leveraging my technical skills, I developed an in-house accounting software that streamlined financial tracking for international clients, improving operational efficiency. Through this experience, I gained firsthand exposure to forex and asset management, sparking a deeper interest in these dynamic fields. Unfortunately, the company faced a downturn and eventual closure due to the COVID-19 pandemic's impact on business operations, coinciding with the Director's retirement. Despite the challenges, this role provided invaluable hands-on experience in the financial sector and honed my ability to adapt to changing circumstances.

### Software Developer 2018 - 2020

Novonto / Netherlands (remote)

As a Junior Software Developer at Novonto, I seamlessly transitioned from academic projects to real-world software development, leveraging my university experience to tackle practical applications. Through this role, I honed my ability to comprehend business needs within the software industry and maintained direct client interactions, supporting management efforts. I contributed to the creation of accounting and exchange software, among other projects, which allowed me to enhance my practical skills and deepen my understanding of the industry. Beyond my initial tenure, I fostered a continued relationship with Novonto, collaborating on various projects on a contractual basis, further expanding my expertise and solidifying my commitment to the field.

### Youtube Content Creator 2016 - 2017

yosakademisi / Youtube.com

While residing in Lebanon, I took the initiative to establish and develop a YouTube channel dedicated to assisting foreign students preparing for university entrance exams in Turkey. Recognizing a gap in online resources, I focused on providing valuable guidance and materials for Mathematics and IQ tests. Through networking with experienced students and leveraging my own knowledge, I gained expertise in this domain. Ultimately, my channel served as a valuable resource, successfully supporting numerous international students on their academic journey while simultaneously aiding my personal preparations for university.

### Associate Translator 2014 - 2016

On4 TV / Istanbul

With a diverse background in content creation, I embarked on my career as a website content writer, translating global news stories for Turkish audiences. This role evolved into editing and translating content for evening news broadcasts, honing my language skills and ability to work under tight deadlines. Additionally, I had the opportunity to assist cameramen and reporters on the ground, gaining invaluable hands-on experience in news gathering and production. Notably, I contributed significantly to the development of a documentary, showcasing my storytelling abilities and attention to detail in crafting a compelling narrative.
